HONOURS AND AWARDS

[2022] IADE

Games For Good GameJam Second place in the Games For Good IADE GameJam.Me and my team developed a arcade game in match with the GameJam theme which was related to "Being Homeless"The game is about helping homeless people by taking their requests and buying the specified item they need on the specific store.By doing that you are rewarded with score and can get money from the help center depending on the amount of people you helped.Manage the time and money so you can help the most amount of people within the time limit.

[2022] Lisbon Games Week

Lisbon Games Week Represented Polytechnic Institute of Setúbal on the biggest gaming event in Portugal, Lisbon Games Week.There I met other talented Game Devs, shared ideas and shared my games for everyone to see, which was very productive feedback wise.
Also attended a small workshop from Kwalee, hosted by Pedro Caria, Kwalee's CTO.There I acquired insight on how games are made and how even small parameters are studied and adjusted to fit each player's liking.
